Seriously. This dude goes through emotional Navy Seal selection every single second for four years and still keeps fighting. Most of us would've have up a week into announcing our run. And that's not a knock against us, just how incredible the enemies of America will fight.

And to think that he could be living out the last 10-20 years of his life with his supermodel wife, kids and grandkids, mansions, clubs, luxury hotels, and inconceivable amounts of wealth. He gave up all of that for us, and if he gives us up, he loses everything. He will fight on for us, and we need to do the same.

I cut down another anti trump argument and continue to stand my ground against the sleeping friends.

I said I could be wrong I often am but let's look at the facts:

Lost money becoming president.

Made his kids stop dealing in foreign affairs.

Opposite is true for Biden's and now his son is under investigation for just that.

"If it were Don Jr...."

I saw Don speak hes always driving home the point: "If I so much as took \$30 from a foreign national..." You'd never hear the end of it

Given the intel drops about China that have been falling the last few weeks, and some of the recent declasses, and the numerous personnel shifts since the election, it seems like there's been a lot of stuff going on in the background for quite a while now. We've barely heard anything about it; notably, Trump's 45 min speech a few weeks ago never mentioned MI at all. That's too big of an omission to be accidental.

If you have weak info, you mention everything and try to make it sound big, like how a random meaningless conversation in a British bar gets turned into RussiaGate.

Whereas if you have strong intel info, you can afford to hold it back for as long as possible. There's no downside in holding it back and there's a chance that in the meantime people will out themselves as they start openly working against you.

I think J.E. Dyer had a recent article laying out some of this, though she goes a lot deeper into the personnel shifts, and some intel agency leaks I'd totally forgotten about.

I'm really naive when it comes to q stuff, but isn't that the main point? "to show the people"

And if the goal is "to show the people" how bad things are, well, you have to let things play out..

If he let's this shit all play out, so the things we always "thought" are right in front of our faces, and can't be dismissed or forgotten so fast, is that not an amazing accomplishment in and of its self? Trump ain't done yet, hell, he hasn't even started. And after the 20th, if they somehow get one over on us, maybe (just like in religion) we should stop waiting for someone to whipe our nose and fix the problems, we as a nation, have created. Personal accountability.

I trust ol papa t. He's earned it in my books. Old dude really has shaken the pillars of hell these past few years.

I like those q bashers. Haven't seen any of them reaching out and touching any of these corrupt pieces of shit either... Maybe they are just waiting along with everyone else too..

That's good and all, Trump is an optimist and believes in people. But at what point do you and him and anyone else realize that's gotten nothing done in almost 2 months now. Believe in the poll workers and mailmen>believe in the lawyers>believe in the courts>believe in our representatives. Nothing. And the later this whole idea of an IA or whatever gets pushed off, the more its going to cause harm than good. You have to realize that.

We have no idea what is going on behind the scenes. And we probably won't know what was happening on any given day for years or decades from now. Any information we get will be immediately known by the enemy, so we have to suffer in the mean time. I expect shit will go down between Jan 6-20. If not for tweets like this, your average voter would be passively waiting for some government agency to save the day. He is preparing the public mindset for possible drastic action on his part. Can't be done in one tweet. Has to be continued and repeated. If you're feeling frustrated by it, it's working.

Around the corner?

Major events have been taking place fairly regularly. Our system is clearly corrupted and Trump only has so much he can do within his capacity because the executive branch is filled with rot and subversive actors. Its why Trump has leaned on Rudy, Powell, Lin Wood, and Flynn, its why Trump is so public about it and asking the people to show up and to pressure their elected officials. Using the insurrection act is a risky move because we don't know who in the military brass would treat Trump as the enemy, and its the last resort to lean on.

I'm sure Trump and his allies are planning on yet another big release but its not like they haven't been doing that. Information warfare is the name of the game, but its only 1 element of it. Theres nothing to suggest this next release will change anything on the ground because the bad actors still have to much control of the system. And with what happened yesterday who knows what is being cooked up by either side.

See a lot of pedes worried about military power rankings with China, Iran and Russia. Just wanted to toss at some good info on U.S. militant power. The base I am currently at, if it were it's own separate country, it would be the 3rd most powerful country in the world. Solely based on the amount of firepower. Now that being said, "if" Biden becomes president, we will probably continue to have our secrets leaked (sold) to other countries and make us completely useless. If you know what your opponent is going to do before they do, how can you hope to beat them? And then the dollar will probably decline so much they push Chinese currency on us. Trump must win. Under all circumstances, this is something we cannot simply sit back and keyboard warrior about. We will have to take action. When I took the Oath, never seriously thought I'd be in a situation where I have to defend the constitution from domestic terrorism. And make no mistake, this is both a foreign and domestic threat. Biden, Obama, Clinton, the Dems, BLM, Antifa, MSM, Rinos. All of them a trojan horse for the CCP to take over. All of them ruined and molded by the simple promise of power and money. The Judas Kiss. Hold the line pedes, "give me liberty or give me death!"

REMEMBER that Jan 19th is the FINAL DAY.

If the CCP walks into that Office on the 20th, we commence.

If we don't, then America is lost.

Well I mean, there is this thing called enlistment. And it is 4 to 6 year contract. Bound by law, and yes i am aware the Dems don't care about law unless they're using it against people. So unless I want to ruin myself and family by going to prison. I'll be serving until it runs out.

I can. GOP is as much a part of the deep state cabal as any democrat. CCP owns them just as much.

They'll finally realize how much support Trump has once they're all up against the wall with our guns at their backs.

The tide will turn, we will have the biggest laugh as the MSM is finally crushed in totality, the corrupt Dems humiliated once again like it was in 2016, only to a much higher degree. Vengeance is mine said the Macho Man Randy Savage. RIGHT NOW!!!

We're armchair quarterbacks wanting to help, only we've gotten up from our armchairs a while ago and now we're looking at hardware. We too have the balls and are willing to help. So conduct!**
